Enc.

RECEIVED No. 6365  
San'y 48-19-

From

A. K. PANI, ESQ., D.P.H., etc.

Offg. Sanitary Commissioner with the Government of

H. H. the Maharaja of Mysore, BANGALORE.

To

C. S. Balasundaram Iyer, Esq., B.A.,

Chief Secretary to Government,

Camp. Mysore.

Sir,

HF  
With reference to para 5, page 9 of the tour notes of the Second Member of Council forwarded with your Official Memorandum No. G. 5531-80 G.M. 22-19-2 dated the 3rd September 1919, I have the honour to state that it is very necessary to employ a Municipal vaccinator on Rs. 15/- per mensem for the Tarikere town whose duty it will be to be in charge of a vaccination Depot in addition to that in the Dispensary and to go round the town every day finding out the unprotected children and either vaccinating them at their houses or requiring them to be presented at the Depot for vaccination. The Municipal Vaccinator may also be the sub registrar of births and deaths for the town.

2. The introduction of the compulsory vaccination Regulation into local areas is expected to bring automatically into effect the organisation in work and procedure as prescribed under the rules. But in actual practice the rules are not or cannot be applied owing, I think, to a serious defect in the definition of the personnel. I fear that in framing the rules the conditions in the larger towns were had rather too prominently in view such as suggested the constitution of the local Medical Officer of Health or in his absence a Medical Officer with the necessary training as the Superintendent of vaccination.

18/10

Now in places where there is a medical Officer of Health Officer has no Medical duties to perform and is besides an - executive Officer of the Municipality. In the smaller towns on the other hand, the Assistant or the sub- assistant surgeon is primarily and essentially a Medical officer, performs no -- functions corresponding to those of an Health Officer and bears no relation to the municipality except perhaps as a member of the Municipal Council. The unnecessarily undue stress laid on the terms- " Medical Officer" in the rules appear to me to have given rise to practical difficulties in the application of the rules. The officer in the smaller towns corresponding to a Health officer in the Cities is clearly the Sanitary Inspector and not the Assistant or Sub Assistant Surgeon. I would therefore propose an amendment of the last sentence in paragraph 3 of the vaccination rules, as follows.

" Such Superintendent shall usually be the Health Officer of the locality or in the absence of such an Officer, a duly qualified Sanitary Inspector".

I have the honour to be,

Sir,

Your most obedient servant,

Offg. Sanitary Commissioner.
